

Employee (m/f/d) Project Engineering – Digitization

Basic Info

Location	Lüdenscheid, North RhineWestfalia, Germany
Job type	Full-Time
Contract	Regular/Permanent

Join ABB and work in a team that is dedicated to creating a future where innovative digital technologies allow greater access to cleaner energy.

Data networking and digitalization of production play a major role in our Smart Factory. Contribute your ideas to our team and develop solutions for the production of tomorrow. If you are passionate about technology, like to organize and would like to take responsibility for implementation, then you have every opportunity to do so with us.

Your responsibilities

- Process planning and development in the field of electronics; focus on digitalization of electronics assembly
- Perform manufacturing process analyses and implement optimizations
- Apply your knowledge in the design and use of database systems
- Project and sub-project management for digitization projects in manufacturing
- Coordination of cross-departmental and cross-location project teams
- Business management analysis of manufacturing processes
- Creation and maintenance of manufacturing documents and master data
- Participation in product setup and manufacturing projects

Your background

- Completed Bachelor's degree in the field of electronics/automation
- Sound experience in the production of electronic devices
- Strong communication skills and ability to work in a team
- Experience in project management
- Basic business knowledge and experience
- Very good knowledge of German and English, both written and spoken
- Willingness to travel nationally and internationally
- Class B driving license

More about us

Bring your very own sense of pride and purpose as you help us drive forward the Fourth Industrial Revolution – creating a sustainable future for our planet, and your career. Join ABB and harness the power of our diverse global network, as you collaborate with and learn from our world-class teams. Above all, challenge yourself every day. Let's write the future, together.

ABB is able to offer you an interesting role within a highly motivated team, together with open communication structures. On the basis of a personal, practice-oriented induction programme, you will be given the opportunity to acquire the confidence needed to work independently and self-reliantly within your assigned area. Even after the joining phase, ABB offers a wide range of individual career development opportunities and supports you in realising your career goals with targeted training measures. At ABB, as a certified family-friendly employer, you will find an attractive working environment in all phases of life - including policies for sabbaticals and home office, the ABB children's vacation camp and taking care of family members.

Interested in joining our team? We are looking forward to receiving your complete application.
